

Gopika Priyanka

Artificial Intelligence Student

✉ priyankagopika8@gmail.com ☎ 7358938858 📍 TamilNadu,India

SUMMARY

Enthusiastic Artificial Intelligence student with knowledge of programming, machine learning, data analysis, and database management. Skilled in Python, C, Java, MySQL, Pandas, NumPy, and Matplotlib. Interested in building AI-based solutions and gaining practical experience through internships and real-world projects.

EDUCATION

National Engineering College, B.Tech

08/2024 – 05/2028

Kovilpatti,Thoothukudi

Pursuing Artificial Intelligence with knowledge of programming, machine learning, data analysis, and database management. Skilled in Python, C, Java, MySQL, Pandas, NumPy, and Matplotlib, with interest in building AI-based real-world solutions.

SKILLS

Python Programming (Basic to intermediate knowledge of Python programming, including variables, loops, functions, file handling, exception handling, and libraries such as NumPy, Pandas, Matplotlib, and Scikit-learn.) | **Machine Learning** (Knowledge of basic machine learning concepts such as data preprocessing, model training, prediction, classification, regression, accuracy evaluation, and algorithms like Logistic Regression, Decision Tree, Random Forest, and Naive Bayes.) |

Artificial Intelligence Concepts (Understanding of AI concepts such as intelligent agents, search algorithms, problem-solving techniques, knowledge representation, and real-world AI applications.)

LANGUAGES

Tamil (Native language with strong speaking, reading, and writing skills.) | **English** (Able to read, write, and communicate in English for academic, technical, and professional purposes.)

CERTIFICATES

Python Programming - Kaggle (Completed Python programming course on Kaggle, covering Python basics, variables, data types, conditional statements, loops, functions, lists, dictionaries, and problem-solving using Python.) | **5-Day AI Agents Intensive Course with Google** (Completed the 5-Day AI Agents Intensive Course with Google, gaining knowledge of AI agents, agent tools, prompt-based workflows, multi-agent concepts, and practical applications of generative AI.) | **Database Management - Unstop** (Completed Database Management certification through Unstop, covering database fundamentals, SQL queries, tables, keys, joins, constraints, and basic database design concepts.)

INTERESTS

Learning New Technologies — Interested in exploring new tools, technologies, and software development concepts to continuously improve technical knowledge. | **Project Development** — Interested in developing academic and mini projects that apply programming, database, and AI concepts to real-world problems. | **Participating in Hackathons** — Interested in participating in hackathons and coding challenges to improve teamwork, innovation, and practical problem-solving skills.

PROJECTS

Flood Alert System using Machine Learning, 02/2026 – 03/2026

AI-based real-time flood risk prediction web application

Developed an AI-based flood alert system to predict flood risk using real-time weather data. Integrated weather API data to collect rainfall, temperature, humidity, and related environmental details. Used machine learning models such as Logistic Regression and Random Forest to classify flood risk levels as Low, Medium, or High. Built an interactive Streamlit dashboard with maps, charts, and visualizations to display risk-prone areas and alert information. This project improved practical knowledge of data preprocessing, model training, prediction, visualization, and real-world AI application development.

COURSES

Artificial Intelligence and Machine Learning, 02/2026 – 02/2026 | Online

Infosys Springboard

Completed Artificial Intelligence and Machine Learning course through Infosys Springboard, gaining knowledge of AI fundamentals, machine learning concepts, data preprocessing, model training, prediction, and evaluation. Developed an understanding of applying AI and ML techniques to solve real-world problems.

ORGANISATIONS

National Service Scheme (NSS), NSS Volunteer 01/2026 – Present | India

Actively participated as an NSS Volunteer in social service activities, awareness programs, cleanliness drives, and community development initiatives. Gained teamwork, leadership, communication, and social responsibility skills through volunteer activities.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details mentioned in this resume.
